

SUMMARY  
Cranbury Township Ordinance # 09-10-14

In the past, Cranbury Township regulations governing recycling, chipping, leaves and brush have been codified together as Chapter 120 of the Cranbury Township Code. This Ordinance separates these regulations into two different Chapters, because the recycling regulations are primarily enforced through the Middlesex County Solid Waste Management Plan, and the chipping, leaves and brush regulations are enforced by the local township. The Ordinance thus leaves the regulations governing recycling in Chapter 120 of the Code and moves the regulations governing chipping, leaves and brush to a newly-created Chapter 121. The Ordinance also clarifies how newspaper is recycled; clarifies what materials will be chipped; clarifies when leaves and brush will be collected or chipped; sets penalties for violations; and provides exceptions from the regularly-scheduled days for collection and chipping.
